KICHWA TEMBO

Masai Mara, Kenya

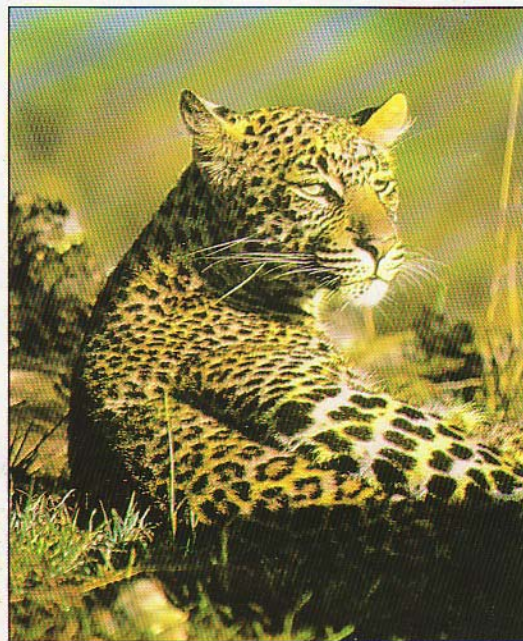

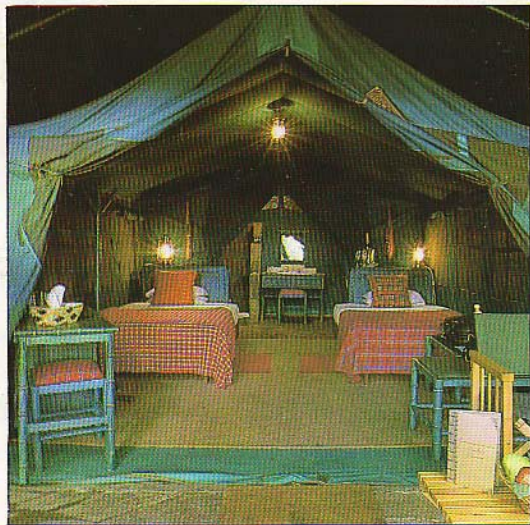

CONSERVATION CORPORATION
AFRICA

JOHNATHAN SCOTT

In English,
Kichwa Tembo
would be called
elephant's head camp,
kichwa meaning head and
tembo meaning elephant.
We think Kichwa Tembo
sounds much better.
This well-established,
permanent tented camp is
situated at the foot of the
Olololo escarpment on
the edge of riverine forest
in the magnificent Maasai
Mara game reserve.

Y our tent is stylish and spacious with twin beds, an ensuite bathroom with hot shower, toilet and electrical hurricane lamp. Best of all is your own shaded verandah with canvas camp chairs and a stunning view.

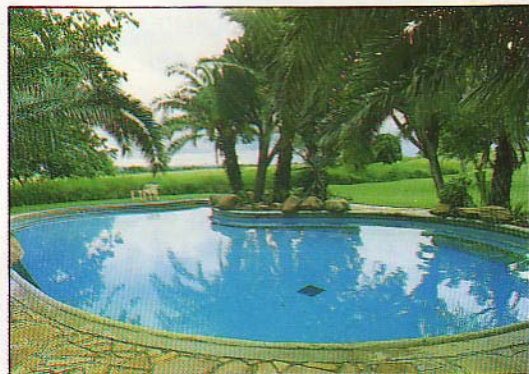

JORIE BUTLER KENT

The view is the first thing to claim your attention. It is a most spectacular panoramic view of Africa. A rolling vista of savannah grassland sprinkled with dark patches of woodland spreads endlessly towards the horizon beckoning you.

Our four wheel drive vehicles are available plus, of course, an expert driver/ guide. Ask your guide which animals he has seen lately and don't be shy to mention your particular favourite. He is an expert who lives here in the Mara and knows the movements of various animals you would never see on your own. If you visit during the wildebeest migration don't miss the Mara river crossing. Dawn and late afternoon are prime game viewing times but there is lots to do between game drives.

For example try a bird walk with our resident ornithologist and see how many of the three hundred resident species you can identify. Book a hot air balloon ascent at dawn for a unique perspective of the Maasai Mara's wildlife followed by a champagne breakfast. How about a romantic candlelit dinner on the banks of the Mara river, a visit to a Maasai village or simply a dip in the swimming pool?

Service is unobtrusive and impeccable.

From the moment tea or coffee is brought to your tent before a dawn game drive to the after dinner nightcap around the dying embers of a campfire, you are cosseted and cared for throughout your stay.

It is the combination of raw nature, adventure and luxury that makes Kichwa Tembo an unforgettable, magical African experience. Karibu.
