

Premium Tented Camp

As Simba proudly surveys his kingdom in his majestic glory, Ndovu leisurely chews on succulent tree branches, his family close by. Not too far ahead, Nyati and his comrades graze on the lush mara plains as the lonesome and often ill-tempered Kifaru stomps along in solitude. And finally, the elusive Chui... lounging above the ground on a lofty tree branch, on the lookout for his next meal.

Together, they make the Big 5. Known as such not for their size, but for the difficulty they presented hunters who tried to capture them. And this is their home. The Masai Mara - Kenya's finest game reserve - gentle rolling grasslands teeming with a plethora of animals and bird life. See Thomson and Grant Gazelles, Topi, Eland, Zebra, Waterbuck, Giraffe, Hippo, Wildebeest, Warthog, Crocodile, Ostrich, Vultures among others, and over 450 bird species, with over 50 birds of prey.

One thing is for sure... at the Masai Mara, you will experience nature in all its wild wonder!
